The West Mekan passenger seats are all designed to give:

- Low weight – all seats made of aluminum
- Long lifetime by the use of molded high quality foam
- Little and easy maintenance
- Options based upon customer demands
- Excellent comfort for the passenger
- Practical and good design
- Easy installation
- Safety for the passenger

Most of the seats are type approved by DNV GL according to IMO rules design level 1 and 2 gcoll up to 12g according to **International Code of Safety for High-Speed Craft, 2000 - Annex 10**

Cruise Executive

The Cruise Executive is our normal business class seat. Due to the size of the vessel we have 3 different widths of this seat, 480 mm, 500 mm and 520 mm seat widths. During the design process for this seat we have focused on giving the passenger the optimum comfort and privacy which is expected for long distance travelling.
